

Dear Mrs. Brown,

My name is Jacob Horton and I am currently the Executive Marketing Director of Student Media, the on-campus media services group. I know during this time of pandemonium there are many students struggling to find jobs and internships for the summer. At USU Student Media we work and strive to provide opportunities to students to learn and grow as we provide entertainment and information to the community and student population. With the diversity of work we have built at Student Media, there are many opportunities for students to continue to develop their talents and try their hand in a professional setting with clients, large projects, and a structured work environment.

We currently are looking for interns to work during the summer and then will be looking to hire many positions for the fall. We have several positions working in photo, video, graphic design, marketing, sales, data analytics, radio station work, and journalism. We are very flexible in positions and have different types of work in between these different set positions. If your student(s) are looking for a position or would like to get a little bit of experience during the summer, please have them email me at jacob.horton@usu.edu or call or text me at (435) 632-5574.

Thank you for your time and consideration.

Jacob Horton
Utah State University Student Media
Executive Marketing Director
